Discussion was held on the building plans for a car port that Ernie Ford wants to build. The city has already checked on the set back requirements. Everything checked out ok. It was moved by Watson and seconded by Bezdicek.

Discussion was held on the bar screen at the sewer plant. Chris reported on the needed parts that are needed. They also felt that a technician was needed to train our maintenance crew on maintaining the equipment. It was moved by Watson and seconded by Hinds to pay the invoice.

The Clerk discussed with the Council about the possibility of running our special levies on the August Election instead of the November election. This would help with budgeting issues. She will do more checking to see if there is a cost difference.

Greg and Chris reported on the flow meter that is installed and running at the sewer plant. This will record data required for our facility plan.

After the meeting ended, a training session for the Council and employees was held. The legislation required basic open government training for local and statewide officials and records officers. The training covered two subjects: records requests and records retention, as well as open public meetings. Those attending were: Mayor Michael Webb, Council Members Bryan Bezdicek, Dennis Hinds, Lydia Smith, Jeff Smick, and Frank Watson. Also attending were Clerk Linda Hayes, Greg Hartman, and Chris Canaday.
